HEAVY ATTACKS MADE

Both French and British
Lines Assaulted Repeatedly By Germans But London and Paris Declare All
Were Repulsed—Russians Still Driving Toward Lemberg—Occupy Stanislau

The activities on the battle lines of Europe are summarized by the Associated Press from reports received from the various European capitals, as follows:

Persistent efforts are being made by the Germans to stop the allied offensive on the Somme by counter-attacking both the French and British. Heavy attacks were delivered last night on the Franco-British lines but neither was successful, according to the allied war offices.

The French were attacked both north of the Somme, near Hem wood and south of the river at La Maisonneuve, the artillery stopping both assaults. The attack on the British took place north of Pozières. London declares it was nowhere successful in penetrating the British positions and resulted in heavy losses to the Germans.

In Galicia the Russians are keeping up their impressive drive towards Lemberg from the southeast. After taking Stanislau, General Letchitsky is pressing on toward Halicz, the important railway junction to the north on the Dniester and key positions in the Lemberg defenses.

Petrograd today reports the crossing of the Koropice river by the Russians in the region north of Buczacz. This advance still further imperils the Stripa line of the Teutons to the north of Halicz to the west. South of Stanislau the Russians are also advancing westward, in the Bystritsa river region.

Stanislau, 87 miles southeast of Lemberg, the capital of Galicia, and an important railway junction, has been occupied by Russian troops under General Letchitsky. In addition the Russians have progressed on the line of the Sereth river, as well as along the Zlota Lipa, taking important positions south of Brody and capturing the railway town of Monastyrzka and several villages. The taking of Stanislau, which Vienna says was evacuated without fighting, opens another gateway through which the Russians may advance toward Lemberg. Already, Petrograd says, the Austro-Germans are being pursued toward Halicz, a railway junction of north of Stanislau, on the Dniester river. Petrograd reports the capture of 5000 more Austro-Germans.

NOW IN STANISLAU(ASSOCIATED PRESS TELEGRAM)
Petrograd, Aug. 12.—Via London. Russian troops in Galicia have crossed the river Koropice and captured two villages, it is announced today by the war office.

The villages captured are Slobudzgurna and Polvarki.

Before evacuating Stanislau, the statement says, "the enemy blew up railway junctions and switches. Otherwise the town was quite undamaged and in perfect order.

"On the Caucasian front north of Bitlis obstinate fighting continues. In Persia, in the region of Botan, our troops are pursuing the Turks, who are retreating hurriedly to Sakiz."

FULTON STILL
LEADS IN VOTE
IN 80 COUNTIES

(ASSOCIATED PRESS TELEGRAM)

Columbus, August 12.—William D. Fulton of Newark is leading in the race for the Democratic nomination for secretary of state, according to figures from 80 counties tabulated today by the secretary of state. Fulton's vote at last Thursday's state primary in the 80 counties was 35,490. J. Henry Newman of Columbus was a close second with 32,172.

For Republican nomination for supreme court judge the same counties give James Joyce of Cambridge 85,342, Willis Vickery of Lakewood 61,667 and Augustus N. Summers of Springfield 57,716.

Summers may yet win out as he received a large vote in Hamilton county which has not yet sent in returns.

Politicians expressed some surprise today at the large vote polled by John J. Lentz of Columbus who opposed Senator Atlee Pomerene for re-nomination. In 80 counties Senator Pomerene received 30,639 votes to 33,970 for Lentz.

CHARGES M'ADOO
REPLACED CLAPP
WITH TAMMANY MAN

(ASSOCIATED PRESS TELEGRAM)

Helena, Mont., August 12.—Charles E. Hughes, continuing his attacks on the administration for its appointments, today charged Secretary McAdoo "upon reliable information" with having replaced Henry N. Clapp, formerly confidential secretary to John G. Carlisle, with Daniel E. Finn, son of "Batter Dan" Finn, a Tammany leader, as assistant appraiser of merchandise at New York.

Some months after Clapp was "put out of the service," Mr. Hughes said, "through fear of criticism on the part of the department he was made an examiner in the customs service, a much lower position than he held before and at a much lower compensation."

"Mr. Clapp had served twenty-five years in the treasury department service. He rose by merit from a clerkship in the treasury department at Washington which was obtained through competitive examination, to the position of assistant appraiser of merchandise in New York.

"He was the expert in the appraisers department and had been the righthand man of five different appraisers and the acting appraiser in their absence. Some months after he was put out of the service through fear of criticism on the part of the department he was made an examiner in the customs service, a much lower position than that held before."

Question Hangs in Balance
When Federal Board
Fails

WANT SPECIFIC PROPOSAL

Brotherhoods State Proposition Submitted by Federal Mediators is Too General and Want it Made Definite—They Adjourn Without Reaching a Decision—President is Interested.

(ASSOCIATED PRESS TELEGRAM)

New York, Aug. 12.—Whether a nationwide railroad strike is to be called or prevented still hangs in the balance today after the United States board of mediation and conciliation, announcing that mediation had failed, made an effort to induce the railroad brotherhoods to arbitrate their differences with the railroad managers.

The brotherhoods, after discussing an arbitration proposal made to them by the board under the Newlands act, adjourned without reaching a decision. They announced that an answer would be given tomorrow morning at another meeting of the chiefs and delegates of the brotherhoods.

A. B. Garretson, head of the conductors' brotherhood, indicated that the arbitration proposal was a general one and that the men were withholding final decision to learn if the railroads cared to be specific.

The final effort of the United States board of mediation and conciliation to settle the difference between the railroads and their 400,000 employees through mediation has failed, but the mediators today proposed to the brotherhoods a new form of arbitration which shortly after 11:00 o'clock the brotherhood chiefs and delegates began to consider in executive session.

Although at 12:15 o'clock the meeting had not adjourned a delegate emerging from the hall said unofficially that the men had voted to reject the proposal for arbitration and to lay their case before the president.

Mr. Garretson described as "premature" a statement made by a delegate who left the meeting before it adjourned that the men had rejected the arbitration proposal and voted to lay the situation before President Wilson. He said, however, that the sentiment of the men was still opposed to arbitration.

The fact, however, that the men delayed their decision in the matter gave rise to hope that they might finally recede from their attitude.

It was reported there was little prospect of the railroad managers informing the mediators upon what terms they are ready to arbitrate, as demanded by the railroad brotherhoods. The belief prevailed that only the good offices of President Wilson could prevent a strike. The mediators went into secret conference this afternoon with the railroad managers.

PRESIDENT ASKS FOR
CONSULTATION WITH
LEADERS OF BOTH SIDES

(ASSOCIATED PRESS TELEGRAM)

Washington, Aug. 12.—President Wilson sent word today to the mediators attempting to settle the threatened railroad strike, that he would like to consult with representatives of both sides before there is a break.

The president was in communication by telephone with the federal mediators, and asked that he be informed if a strike became imminent.

Up to 1:00 o'clock he had not received word that the situation was hopeless.

The president informed the mediators that a strike must be avoided and that if a deadlock were reached he would like an opportunity to talk to the representatives of the railroad managers and employees.

UNORGANIZED EMPLOYEES
ASK PRESIDENT WILSON
TO PROTECT THEIR JOBS

(ASSOCIATED PRESS TELEGRAM)

Washington, Aug. 12.—A petition signed by 6,000 employees of the Nashville, Chattanooga and St. Louis railway, not members of the great brotherhoods, was presented to the president today asking congress to pass legislation protecting unorganized employees against a tie-up which would result from strike of the brotherhood members.

(ASSOCIATED PRESS TELEGRAM)

Philadelphia, Aug. 12.—A foundation for a thorough scientific investigation of the cause, means of transmission and cure of infantile paralysis, has been projected by the Philadelphia Pediatric Society, it was announced today. An eminent pathologist who was associated in the experiments at the Rockefeller institute has volunteered his services provided an equipped laboratory is placed at his disposal and urgent appeals are being sent to wealthy Philadelphians to provide in executive session.

Four deaths from the disease and 16 new cases were reported here for the 24-hour period ending last midnight. In the state outside of Philadelphia, 15 new cases were reported.

SIR EDWARD GIVES

CUTTING THINGS.

(ASSOCIATED PRESS TELEGRAM)

Paris, Aug. 12, 5 A. M.—Sir Edward Carson, in an interview in today's *Matin*, declares that the Germans are barbarians and should be treated as such.

"In peace as in war," Sir Edward is quoted as saying, "the Germans are barbarians and we should treat them as such. Let all the allied governments declare forthwith to the German people: Even when we shall have signed peace, we shall not send any diplomatic representatives to Berlin nor receive any diplomatic representatives of Germany in our capitals, as long as you Germans shall not have yourselves punished all those who have violated international laws which were set up in the interests of humanity during past centuries which have witnessed the progress of civilization."

The president was in communication by telephone with the federal mediators, and asked that he be informed if a strike became imminent.

Up to 1:00 o'clock he had not received word that the situation was hopeless.

The president informed the mediators that a strike must be avoided and that if a deadlock were reached he would like an opportunity to talk to the representatives of the railroad managers and employees.

TURKS BLAME BIG
SANDSTORM FOR
DEFEAT AT SUEZ.

(ASSOCIATED PRESS TELEGRAM)

London, Aug. 12.—The admission is made in a telegram received here today from Constantinople that the Turks were compelled to fall back after the recent battle with the British east of the Suez canal. The dispatch says the Turks attacked the main positions of the British and made progress until a gigantic sandstorm came up and impeded them.

"The enemy made a surprise attack on the rear of our left wing," the dispatch continues, "part of which, after long fighting, fell in his hands."

"Owing to this incident we withdrew our troops in the direction of Katia. On August 5, the enemy, with all his forces attacked our troops encamped in the district of Katia, but was repulsed with severe loss in a counter-attack. We withdrew that night to a line east of Katia."

ENGLAND WANTS
ANOTHER BIG LOAN
TO BUY MUNITIONS.

(ASSOCIATED PRESS TELEGRAM)

London, Aug. 12.—Expectation was expressed in financial circles today that within a fortnight official announcement would be made that negotiations had been completed for a new loan, reported to be \$250,000,000 to Great Britain. It is said the main object of the loan would be to pay for American munitions.

Securities for this loan, it is reported, would include deposits of about \$200,000,000 of Canadian, Argentine and Swiss government bonds and stocks and bonds of American railroads and industrial corporations.

Printers May
Be Without Work;
Union Men Meet

(ASSOCIATED PRESS TELEGRAM)

Baltimore, Aug. 12.—The danger that thousands of printers may be thrown out of work because of the high cost of white paper was said to be a question seriously concerning the delegates to the sixty-second annual convention of the International Typographical Union which begins here next Monday. The delegates began arriving in large numbers today.

The convention will hold a brief session on Monday for organization and appointments of committee. Adjournment will be taken for the remainder of the day so that the delegates and other visitors brought here by the convention may attend a crab feast arranged by the local entertainment committee for the afternoon and evening. Tuesday also will be devoted to pleasures and the delegates will not get down to actual work until Wednesday.

ROY J. BAIRD, AGENT FOR THE MAXWELL MOTOR CARS AND five different makes of bicycles, began his business career as a newsboy on the streets of New Lexington, selling papers to put himself through high school. The characters in Horatio Alger's novels started life as newsboys, and by placing their ambitions on a higher level than those surrounding them climbed to success in the business world. So it was with Mr. Baird. Out of a family of nine children, all of the boys were forced to make their way in life at an early age. He left his home and the place of his birth to go to New Lexington, where he was graduated from the high school in 1900. After clerking in a New Lexington shoe and clothing store for five years, he came to Newark and accepted a position in the shoe store of Jones & Evans. Two years later he gave up his job as shoe clerk to become the manager of the Ball-Finlite bicycle and supply store, and after two years with that firm bought the store and became its manager. His office and salesroom is in 34 South Third street, where there is a display of automobiles and bicycles to catch the eye of the purchaser. In taking the Maxwell agency, Mr. Baird aimed to sell a car that is within the means of the buyer in moderate circumstances and that would withstand wear and give service equal to that of any low or moderate price car on the market. Although he handles the bicycles of five different firms, Mr. Baird has difficulty in getting enough bicycles from the manufacturers to meet his rapidly increasing sales.

D. H. H. Baker Declares Symptoms
Are Not Like Those of Paralysis
—Quarantine as Precaution.

To guard against an epidemic of infantile paralysis or the spread of the disease among the children of this city, the board of health, since the discovery of the case in Maple avenue Thursday has taken precautionary measures, and there are four families and one child, who was exposed to the disease, quarantined. This afternoon no cases, other than the one already diagnosed as infantile paralysis, had been reported to the health board of the city. Health Officer Dr. W. H. Knauss has issued a bulletin of instructions to be followed by physicians, parents, children, and all those who are liable to come into contact with any case or suspicious case of the plague.

The health board recommends that children under 12 years of age be kept away from public gatherings, that all visits to sick children and to the homes of sick children should be discontinued, and that the infant classes of Sunday schools be temporarily closed. He further recommends

NEW MANAGER OF NEWARK'S CHAMBER
OF COMMERCE IS A REAL LIVE WIRE

DIRECTORS of Newark's new Chamber of Commerce, may be pardoned if they expect great things of George H. Mosser, who has been selected as manager of the chamber, and who will assume his duties next Tuesday, if present plans do not miscarry.

Mr. Mosser, just now is closing up his connection with the Altoona, Pa., Chamber of Commerce where he has been manager for the past three years. Expressions of appreciation of his efforts while in Altoona were unreserved in letters received by the Newark directors while considering Mr. Mosser for the position here.

The fact that he was chosen from a list of more than fifty applicants and that he was selected from some half dozen or more, who were seriously considered, should be sufficient evidence that he has accomplished things in the past and that the level-headed Newark business men at the head of the local Chamber of Commerce thoroughly believe in him, and are confident that he will be able to do just as big things for Newark, as he has done in Altoona and other places.

Mr. Mosser is qualified for his position. That fact is self-evident after one studies his record. Mr. Mosser's record was gone into thoroughly before he was engaged and about the only "dope" the local business men did not get on him, was his Bertillon measurements and his finger prints. The fact that the candidate had never been arrested probably explains why this data is missing.

The new manager has had a wide experience which seems to have been of such a nature as to particularly fit him for work such as he takes up here.

To begin with, every one with whom he has been associated does not hesitate to state that his energy, his "pep" is unbounded. He may have acquired this in his newspaper career which has been extensive. But he's got it and in his work it is a big asset.

He has made a careful study of industrial and business institutions from a critical standpoint. In his newspaper career he established a feature department in a St. Louis paper, in which he wrote a series of articles on agricultural and industrial development in the counties and states southwest of St. Louis. Probably it was here that he became in-

discharged from the mouth and the nose, and are taken into the body by the same passages. Experts have branded the fly as an enemy of children, as it has been proven that flies are carriers of the disease.

In New York a new serum is being tried as a remedy and as a preventative, and this treatment is very severe. Mt. Vernon, Zanesville, Columbus, Toledo, and Cleveland have reported cases since the beginning of the epidemic in the east.

The following regarding infantile paralysis is issued by the local health board:

All cases and all suspicious cases should be immediately reported, as provided by law.

Children under 12 years of age should not for the time being be permitted to attend public gatherings.

Infant classes at Sunday schools should be closed for the time being.

Visits to sick children or into the homes where sick children may be should cease.

A two to four per cent solution of hydrogen peroxide for nose and mouth wash, is recommended as a precaution.

EPIDEMIC STILL RAGES.

ASSOCIATED PRESS TELEGRAM
New York, Aug. 12.—An increase in both deaths and new cases in the epidemic of infantile paralysis is shown in today's bulletin of the health department. Forty-two children died of the disease during the 24-hour period ending at 10 o'clock this morning and 167 new cases were reported as against thirty-one deaths and 165 new cases yesterday.

TROOPS

(Continued from Page 1) received orders to move the troops south as soon as they were "fully equipped."

These orders were never modified and the order today seemed almost a repetition of the previous order.

The equipment which the troops now need before they are moved is arriving rapidly. Some officers expressed the opinion that the Eighth and Fifth regiments would have enough equipment by Monday to leave.

Officers believed that the new order did not mean an immediate movement to the Mexican border. None of the regiments has yet received enough equipment to be considered "fully equipped" as specified by the war department.

Under a former rule of the war department the railroads are entitled to twenty-four hours' notice in which to prepare for the transportation of troops but Major Mearns said this rule might be modified so that the soldiers could get away sooner.

Because of the quiet trend of the Mexican situation it is not believed the Ohio troops will be hurried out of the camp here following the new order but the equipping of the men will be continued with deliberation.

The certainty that they will be sent south put new life into the enlisted men. They sang and shouted as they went to noon mess and were making bets on which regiment would get away first.

Lieut. Col. Chas. C. Weybrecht of the Eighth Regiment still expects his organization to be first away from camp.

Safety First Selfishness. "If your children are to be sure of escaping this particular germ," said the scientist, "you'll have to take them into the country."

"Won't you please keep that a secret for a few hours longer?" "Why not?"

"So that I can move out before the country people hear about it and refuse to take any children to board."

—Washington Star.

GEORGE H. MOSSER.

interested in organizations such as boards of trade and chambers of commerce. At least it was soon after he wrote these articles that he took up organization work and has been successful ever since.

He was born in Bangor, Pa., of Pennsylvania Dutch stock. That he was mentally active is indicated by the fact that he was graduated from high school at the age of 14 years. He attended Schuyler seminary, then Albright college for a year and then began teaching in a district school at the age of 15. He taught for 34 months, this period including his term as principal of a school which he held at the age of 18.

While at Lafayette college, Easton, Pa., he was on the "varsity" ball team, member of the Phi Kappa Psi fraternity, and of one of the literary societies. He left college before becoming graduated and went west where he played professional baseball for two seasons.

He attended Blackburn university, Carlinville, Ill., was captain and pitcher for the bat team which was famous in 1895 and 1896. He was also editor of the college paper. He was graduated there with a degree of Ph. B.

After leaving college, he began his newspaper career which covered all the activities of newspaper work

from cub reporter to boss of the whole works, even to the ownership of a paper. He had "big league" newspaper experience in St. Louis where he won the confidence of his employees and the administration and respect of his associates.

It was in 1911 that he first took up organization work as secretary of the Alton, Ill., Board of Trade and since that time he has been steadily climbing the ladder of commercial organization work until his selection by Altoona as its Chamber of Commerce manager.

His services have been in great demand all over the country. The local directors found out that much when they sought his services. They learned that he had turned down a number of opportunities to make a change but he was anxious to put Altoona on the map before he gave up his work there and he had the satisfaction of accomplishing just that very thing.

Altoona business men and members of the chamber, were unanimous in expressing their regret that he was to leave.

Mr. Mosser's abilities are not confined to directing the work of the chamber of commerce. He is a speaker of ability and is frequently called upon to address other chambers of commerce or trade organizations upon subjects in which they are interested.

The regular publications of the Altoona Chamber of Commerce indicates that Mr. Mosser has not been idle since he took up the work there and they also indicate that he has not allowed any grass to grow under the feet of his officers and directors and members.

The Newark Chamber of Commerce, organized this spring, is particularly in need of a man of just Mr. Mosser's type and the directors are indeed fortunate that they were able to persuade him to come.

His methods, his dynamic energy, and his tireless activity earned for him the sobriquet of "Cyclone George."

Directors of the Chamber of Commerce are planning a reception and dinner for Mr. Mosser which will be given soon after his arrival in Newark. All members of the body will not only be invited, but will be expected to attend. Mr. Mosser is anxious to meet and get acquainted with the members and this will be the best opportunity for all.

MURPHY WINS PITTSBURGH \$6000 STAKE

GENERAL TODD PACES FASTEST RACE OF MEETING TAKING SECOND HEAT IN 2:04

Two Feature Races Scheduled for Saturday Afternoon—Three Stars Entered in Free-for-all.

Pittsburgh, Aug. 12.—The furniture manufacturer's stake for a purse of \$5000 held the center of interest at the closing day races at the Grand Circuit meeting yesterday. The race was raced in three heats and there were six starters. Another feature was the free-for-all pace in which Napoleon Direct, Russell Boy and Single G were among those entered. Other events on the program were a 200 yard dash and a 214 trot, both valued at \$1000. The track was in the best condition of the meeting.

Expressive Lou won in straight heats, the Matron Stake, valued at \$5000, which was the feature event yesterday. Lou, with Eddie Watts, Gears up, finished second in the first heat and third in the second.

The Comstock \$2000 purse was won by Box R. from Columbus in straight heats. Thomas Earl took the 2:14 pace with \$1000, with little difficulty, and Worthie Prince, by finishing first in two heats and second in another won the 2:24 trot.

The best time of the afternoon was made in the second heat of the 2:05 pace by General Todd, covered in 2:04 1/2. R. H. Brett, however, finished in the lead in the first and third heats and was awarded the race.

Directum I., world's champion pacer, made his first appearance of the year on a track and proved to be a running champion, negotiated a mile in 1:59.5. Sum-

Most of the time since the start of the season the White Sox have strung along in the second division, once coming to the top. For two days, May 22 and 23, they were in last place, but the next day, they jumped to eighth position to fifth place. From that time on they have been battling under a handicap. Two of the three fielders have been out of the game at one time or another, and Urban Faber, one of the mainstay twirlers of the club, was on the hospital list. Today most of the players have recovered to such an extent that they can be called into the fray any time.

The return of Faber is one of the greatest assets to the club. Likewise, the recovery of Eddie Collins, batting an average of .360, and the return of the young, fast batsmen, such as Eddie J. Jackson, all tend to make the Chicago club a logical winner of the pennant, according to fans here.

Jack Ness, the first baseman, who established a world's record for consecutive hits, has been a valuable asset to the team. The White Sox last year, playing a marvelous fielding game around the initial corner, and is contributing some timely hitting.

Export Trade.

United States Senator Atlee Pomerene has rendered the greatest service to the people of Ohio in his efforts to interest Ohio manufacturers in export trade. Senator Pomerene has been deeply interested in industrial preparedness and has made a thorough study of conditions by which this country may prosper now and in the future. Under existing legislation it is possible to expand the business of the country in great degree, and the present congress promises further enactment that will add to the prosperity of the entire United States.

Not long ago a friend discussed the matter of business preparedness with Senator Pomerene in his office at Washington. He was amazed at the knowledge the senator had on the subject and the clear vision he possessed regarding future development.

The close relation Senator Pomerene has with the leaders of the national administration makes his views in this regard, or any other, worth while. While others in Ohio have been "viewing with alarm" the disasters that may come to business after exhaustion of the present unbounded prosperity, Senator Pomerene has been serving and preparing for service to gain for the United States more abundant abundance than any yet experienced.

The primary election returns have thrown a genuine scare into the kitchen cabinet of Governor Willis, who now recognizes the certainty of defeat. In desperation he is now willing to call in the aid of Progressives whom he has heretofore lampooned. His record as Governor in kicking out known Progressives, wherever found and replacing them with Glue Democrats, ought to aid him now.

The Italian Advance.

(Pittsburgh Dispatch.) The sudden and in a measure, surprising activity of the Italian military forces, resulting in almost startling successes, can be attributed to two things. The working out of the plan of concerted action by the Allies and the continued advance of the Russian troops whose drive has greatly lessened Austria's power to protect her Italian frontier. The campaign of Brusiloff has from the first put a new phase on the war. Coupled with the renewed activity on the Western front, an activity much more determined than heretofore, it has compelled Austria to fight her battles virtually alone. Germany must devote all her attention to the Western zone. Austria might have continued to hold on Italy but for the Russian attacks. Confronted on both sides with practically fresh armies and with little or no assistance to her own exhausted forces from her ally, the plight of Francis Joseph's empire may soon be considered desperate.

In the meantime the Russians continue to drive back the Turks in the north, while the recent failure of the Sultan's troops to do anything against the British in the region of Suez shows the Eastern ally of the Central Powers can be counted on for little help. Continued success of the Entente such as have marked recent fighting might easily bring about a change in the attitude of some of the Balkan States. It is all in the future, of course, but that future may be very near. Of immediate interest just now is the progress of Italy toward Trieste, only a short distance from Gorizia and undoubtedly the next object of attack. With Trieste, the long sought, held by the forces of Victor Emmanuel, the rewriting of history soon may be begun and "Italy unredeemed" be but a memory.

Advertising School

LESSON NO. 6

Advertisement writers usually can gain the impression that the make one or two errors. Some of them fill their space so full of fine type that the whole array of closely set matter looks forbidding. Others are too indifferent to give any details, and merely write a few catch phrases in big type. If a merchant does not want to take much space, let him pick out a few of his best values and feature them.

If goods are "seconds" say so. The public will have all the more confidence because you tell the truth. People are very sensitive on these points now.

The news element in advertising should be given great prominence. Remember that a mark down sale or the purchase of a job lot are the best news in the paper. No battle fought in France will attract half as much real interest. If you are marking down your goods, give your reasons frankly, so that the public

Wealth Doubled.

(Ohio State Journal.)

The Morgan wealth has doubled by the war. That is another argument against war. There are already too many rich men and too many poor men. Is there a relation between the two facts? Present political economy says there is, but just how to magnify the relation and thus reduce the number of the rich by increasing the riches of the poor is a problem that has not yet been worked out. It will be some day when we get rid of war and of those grand governmental schemes that organize a progress with humanity left out. The soul of America has not yet got to work, but it will when men become better than things and our culture becomes more spiritual than mental.

Quaker Quips.

(Philadelphia Record.)

Many a married man's best friend is his wife's husband.

A girl would rather be told she is passing fair than that she is already past.

A pessimist is a man who always buys a return ticket on the road to success.

Fortunate is the man whose troubles are not worth the time it takes to tell them.

You never can tell. An innocent lie sometimes does less harm than a deliberate truth.

It isn't necessarily because a girl loves her enemies that she invites them all to her wedding.

The fellow who thinks everything is for the best may also tell you nobody is any better than he is.

Spirit of the Press

Hats Off to the Deutschland.

The visit of the submarine freighter Deutschland seemed notable, first of all, in verifying romancer Jules Verne. Also one thrilled to the daring of Captain Koenig and his crew. Incidentally, the Deutschland created a remarkable diversion at a time when Germans were as hungry for good news as for good food. After the naval "victory" off Jutland, and the commencement of the allies' "big push," what more welcome than this bloodless triumph over British sea power? But for Americans the coming of the Deutschland seemed of especial importance in the light its construction and the construction of other "supersubmarines" may throw future Germany policy and on American neutrality.—Collier's Weekly.

He Doesn't Like Him Now.

One reasonably safe prediction is that Colonel Roosevelt will be polling mad at the next president.—Ohio State Journal.

And then when she has worn it out
 She'll say with martyred air,
 Unto her husband, poor old wot,
 "I've not a thing to wear."

Aunt Celia Says:
 Era Gates says to me if some of these here women spent even half the time on their curtains that they do on their complexions, their reputations for being in good housekeepers would look up some. And if Mr. Hughes were seeking to educate his supporters with evil wishes for the object sought by our soldiers on the Rio Grande, he could not take a surer method of securing such a result than he is taking by his continued and wearisome rulings against Mr. Wilson's dealings with Mexico.

To say the least, notwithstanding Mr. Hughes' oft-repeated protestations of his superior "Americanism," he is not supporting his government in this crisis as all good American citizens without distinction of party ought to support it. I well remember what we Union soldiers thought of the men who were firing on our rear during the civil war.

 Scant Rainment.

Speaking of the old-fashioned man, what has become of the one who used to walk down the street clothed in a long Prince Albert coat, a silk hat, and fanning himself with a palm leaf fan with one hand while carrying a rusty umbrella in the other?—Springfield News.

We certainly thought it a bore To arise in the morning at four; Some folks may not care, But for me, I would never Do a thing but sleep sweetly and snore. —Arthur J. Mathews, M. Vernon.

Amusements

The Auditorium.

The attraction at the Auditorium will be that sterling actor Douglas Fairbanks, who will be seen in the Triangle-Ince drama, "The Good Bad Man," a dashing, old-fashioned, new-fangled thriller. The leading character of "The Good Bad Man" is an eccentric outlaw who calls himself "Passin' Through" (Douglas Fairbanks).

All that is known of him is that he is a most cheerful young man, always smiling, and guilty of some extraordinary offenses against law and order. One of them is the holding up of the Pacific Express for the sole purpose of robbing the conductor of his ticket punch.

But another crime, which is more typical of the kind of exploits for which "Passin' Through" is notorious, is his raiding of the grocery in town one day, taking a quantity of flour and bacon away, and giving the provision so obtained to a poor little orphan kid who lives alone on the outskirts of civilization.

Throughout a series of events that follow, with "Passin' Through" the sunny person of Douglas Fairbanks, plunging along in a mad career of love thrills, gun-play and laughter. This feature is seen together with a Mack Sennett two reel Keystone comedy called "A Dash of Courage."

Nancy Boyer.

Miss Nancy Boyer who will be seen here August the 22nd, afternoon and evening at the Auditorium Theatre is not a newcomer to our playgoers. She has played Billie Burke's role in "Jerry," Margaret Anglin's role in "Green Stockings," Ethel Barrymore's part in "Mid-Channel" and Marie Doro's character creation in "The Morals of Marcus" and now she is given an opportunity to create a character in George M. Cohan's play "The Little Lady from Lonesome Town." In the part of the heroine "California" she has a role ideally suited to her sincere methods. She is considered by our leading artists as the ideal type of American womanhood.

Nancy, always a favorite with Newark Theatre goers is due to arrive in our city tomorrow, coming from Atlantic City where she has spent the two last weeks. Her company will assemble here and will rehearse before opening their regular season. This year Miss Boyer plays only the large cities and Newark is

Alhambra Sunday.

The first of the Helen Haines series of Mutual Star Productions to appear at the Alhambra theatre is "Whispering Smith," a romance of the railroad life founded upon the popular novel of the same title by Frank H. Spearman, and produced by the Signal Film Corporation. This book is one of the most successful works of fiction of recent years and the film version of the thrilling story bids fair to rival the written novel.

Marie Doro, the versatile LaSkey star, in "Common Ground" will be the attraction at the Alhambra on Monday and Tuesday.

All Tired Out, Stomach Making Trouble, Liver Not Acting?

A Wineglassful of Tollo Water Will Make the Liver Act Freely and Relieve Your Stomach In Thirty Minutes

Most cases of stomach trouble are caused by constipation, which clogs the liver. It does no good to dose the stomach wth drugs when the real cause is not removed.

When the bile tubes of the liver are clogged the bile is forced back into the system, causing constipation, stomach trouble, gas, heartburn, headaches, coated tongue and swollen complexion.

An occasional Tollo Water bath will remove all these symptoms. Will clean out the bile tubes, flush the waste out of the system and give your stomach a clean, fresh start.

Tollo Water is found at Dawson Springs, the famous Kentucky health resort, and has the property of dissolving the obstructions in the bile tubes and stimulating the action of the liver and bowels.

It will expel all the sour bile and waste matter from the stomach, liver and bowels in half an hour, then your stomach trouble will disappear and you will be able to eat what you like and enjoy it.

Get a 15-cent bottle from your druggist. Take a third of a tumblerful in a glass of drinking water before breakfast. It will make you feel better than you have in weeks.

Milady's Boudoir

The Habit of Swinging the Arms. If you will observe the number of women who swing their arms as they walk along the avenues, you will give the topic more thought in the future I am sure.

There should be a slight movement to the arms if you have nothing to carry in them, so as to give a sort of rhythm to the figure as you walk. But this little backward and forward movement should never develop into a swing.

If you find difficulty in overcoming the "swing" cultivate the habit for a brief while, at least, of carrying something in both hands, when the arms are burdened even lightly there is very little tendency to movement. Your handbag held in one hand and possibly a book held in the other will act as weights and you will soon lose the desire to swing the arms back and forth.

Another serious defect in connection with the arms is that of pointing the elbows out instead of in. To be graceful the elbows must be held close to the body, although in the act they must not be stiffened. At first the position will be more or less difficult, but in time it will become easy and natural.

The rolls of fat under the arms are apt to cause the holding out of the arms, but a firm massage daily and a pressing of the arms against the sides will overcome the difficulty, aiding greatly in removing the superfluous flesh from this part of the body.

A simple cutting out of bread and potatoes, indeed will reduce the flesh on all parts of the body in most instances.

As Old As You Feel. A woman is as old as she feels—goes the old adage. Sometimes she feels about 90, so the adage proves to be only an expression, not a rule, figuratively speaking.

There are many ways, and indeed simple ways for the woman of today to remain young. Until we are 20 nature takes care of our appearance, but in later life we must take some of the responsibility on our own shoulders.

The half hour beauty nap every afternoon is the first aid to an un wrinkled youthful face.

A brisk walk in the fresh air, with lungs inhaling the pure oxygen, and mind absorbing the beauties of the surroundings is the second aid to youth.

The third aid is the nightly warm bath. Supply yourself with a body brush as well as a face brush and rub vigorously every bit of the cuticle on your body, until it reaches a pink glow. Then immediately after the bath, curl into your warm bed for an eight hours unbroken sleep.

Try these simple remedies and be convinced that youth has not deserted you even when you have turned the 40 year atom.

HAMILTON

REPORTS UTTER DISREGARD OF LAWS GOVERNING EMPLOYMENT OF CHILDREN.

Says Department Found it Necessary to Institute 115 Prosecutions For Violations in Three Months.

Columbus, Aug. 12.—"Most appalling, indeed, is the utter disregard for the laws relating to child labor, compulsory education and the 54-hour law for women," asserts George H. Hamilton, chief inspector of the department of workshops and factories, in his annual report to the state industrial commission.

Mr. Hamilton says that in three months it was found necessary to institute 115 prosecutions for violations of these laws and while the evidence was sufficient to convict, a justice of the peace "dismissed 15 cases on account of errors in warrants drawn by himself." Seventy-two per cent of the fines in the cases prosecuted either were suspended or remitted, he adds.

The laws do not need strengthening, Mr. Hamilton says, but what is needed are men who have a broad sense of justice, instead of men who, "when the dollar is the thing involved or business shrewdness, the principle at stake, will bow and smirk before the shrine of selfishness."

Outside voluntary societies, such as the Friendly Girls' Society, Consumers' Leagues and similar organizations, are most annoying to the department, the report states, when they attempt to make the department subservient to them by asking the deputies to call at their offices to take up complaints. A rule laid down by the department consequently to take up no complaints unless they are brought to the deputies in regular, written form. The report says:

"Then the anti-tuberculosis societies favor sending to the country all the children, to be employed at light tasks, while other societies inveigh heavily against the employment of children in berry patches and the onion fields. That there are instances of cruelty we do not doubt. We find them severally. With the woeful disregard of the child laws in all cities, it seems a little far-fetched to be so solicitous about the children in the open, breathing good air and absorbing sunshine, and at the same time pass up the poor little boys and girls who are worked to death almost in the stifling workshops of the city."

Mr. Hamilton cites the case of one big munition manufacturing plant, employing 3500 women and girls, which he says, was violating the 54-hour law, the eight-hour law and the age and schooling certificate law. When prosecutions were started against this company, it tried to have the investigating deputy, a woman, discharged from state service, he says. He names two Columbus companies which he says are employing boys of 12 and 13 in unhealthful labor.

Municipalities, school boards and contractors engaged in the construction of public improvements, in many instances, are opposing the 8-hour public work law, the report sets forth. In many cases, municipalities have tried to take advantage of the emergency proposition, as an excuse for a 10 or even 12-hour day, and cities have gone so far as to establish long days, Hamilton declares.

In all cases of detected violation, the law was enforced by the department, according to the report.

By the bakeshop deputies there were 2268 inspections during the year, 95 per cent of which carried orders and \$2 1-2 of the orders were complied with.

The department since February condemned 600 mattresses and ordered them shipped back to the manufacturers. Four hundred filthy second-hand mattresses were destroyed under the direction of the department. The mattress law, Mr. Hamilton says, should prohibit the sale of second-hand mattresses.

The 21,037 building inspections made by the department last year includes: Factories, 11,187; schools, 1936; halls, 505; theaters, 670; churches, 412; hotels, 201; tenements, 115; mercantile, 3196; home workshops, 36, and miscellaneous, 406.

Canton Olive, No. 90, Canton Olive met in regular session Wednesday evening with a good attendance. One candidate was obligated. Several important matters were discussed—Grand Encampment, the Zanesville trip, our next entertainment and the reorganization of our degree staff. Committees were appointed to report at a special session to be held August 18th. Captain Wilkin will be on hand at the special session to give drill instructions so all chevaliers are ordered to report in fatigues. All patriarchs and brothers who expect to accompany us on August 20th will notify Chevalier Wareham or Moran so that the necessary accommodations may be secured.

Olive Branch Lodge, Olive Branch Lodge No. 34 met in regular session Tuesday evening. Only routine business was transacted. One candidate was elected to membership, and one new petition was received. Tuesday night, Aug. 15, the initiatory degree will be conferred. Officers of the degree staff are urged to be present, as Tuesday night is the only time that the candidate can be present for some time.

Mt. Olive Encampment, Mt. Olive Encampment No. 12 met in regular session Thursday evening, August 3d with a fair attendance. The Patriarchal and Golden Rule degrees were conferred. This meeting proved to be one of the most interesting meetings held for some time and on our next meeting night, August 17th, every member of the encampment is requested to be left side down, face in kite.

ATTITUDE

OF EUROPEAN BELLIGERENTS TOWARD RELIEF MEASURES CAUSES DISAPPOINTMENT.

Great Britain, Austria and Turkey All Refuse Request of America to Aid Sufferers.

(ASSOCIATED PRESS TELEGRAM)

Washington, Aug. 12.—The uncompromising attitude of European belligerents in the negotiations through which the United States had hoped to extend relief work in the war zones is causing keen disappointment among officials. Three new notes on the subject were before the state department today, but none of them appeared to open any new avenue for continuation of efforts to aid the starving and homeless of the war swept areas.

Great Britain and Austria again have declared in vigorous terms their unwillingness to recede from the regulations which have operated to exclude American relief supplies from Poland and Serbia. Turkey, in a note refusing to permit a neutral commission to undertake to feed and clothe the war sufferers in Syria, apparently has endeavored to forestall any further humanitarian efforts in that quarter.

At the same time officials are confronted with a deadlock in the negotiations for permission to pass Red Cross supplies through the allied blockade lines into Germany and Austria, and there have been intimations that Belgium, now fed and clothed almost wholly by American charity, soon might feel the weight of new restrictions dictated by the military necessities of the great powers whose armies occupy her soil.

Gloomy as the outlook is, officials have not abandoned hope that a more humane view may eventually be impressed upon the belligerents.

Wall Street.

(ASSOCIATED PRESS TELEGRAM)

New York, Aug. 12.—Confusion, resulting chiefly from the critical railway labor situation, accounted for the irregularity of prices at today's opening. This was indicated by the uneven movement of rails, Reading

scoring a material fractional gain with losses of as much or more in Union Pacific and St. Paul. Publication of the marine readjustment was followed by a 10-12 per cent loss in coal stock. There were large offerings of U. S. Steel at slight concessions. Munitions and equipments were fairly firm and copper showed improvement. Heavy trading in the market noted.

Today's market was influenced largely by events attending the railway labor conferences, trials were irregular with strength in Reading and heavier in Winter Haven. Announcement toward the end of the session of the virtual failure of mediation proceedings was followed by a reaction, yielding all the rise with more moderate intervals elsewhere. Openings were over the railroads, at 1 to almost 3 points, lost little of their advance. Shipping issues were heavy in connection with the proposed capital readjustment of the mercantile company. The closing was irregular. Bonds were steady.

CARS NEEDED FOR KIDDIES' LAKE OUTING

Just thirty more automobiles are needed for the children's picnic at Buckeye Lake, Thursday, August 17. With over 1,800 machines in Licking county it seems as if it ought not to be a task to secure 70 of them to transport 300 little kids who seldom if ever have an auto ride to Buckeye Lake Park for a day's outing including a picnic dinner.

Dr. J. T. Lewis, chairman of the picnic committee, states that he has only forty car owners signed up. Surely thirty more will volunteer. The members of the picnic committee have been working hard to make the picnic a success. They have been devoting their time and giving much attention to the necessary details and also assisting financially so that 300 of the city's youngsters may have a good time, and yet when they send out the S. O. S. call for assistance, it is not readily answered.

It is to be hoped that enough big-hearted men will offer their services and cars for next Thursday so that all the children may have a fine auto ride. It will be a Big Brother for one day and you will derive much satisfaction from it. You will have just as much fun as the little ones. Won't it be a great pleasure to tell your own little ones how the kids enjoyed themselves at the outing?

All arrangements have been made for the dinner and lunch in the afternoon and Messrs. Detenbach & Fisher, park lessers, are going to give the kids a boat ride around the lake and the committee will see that they also get a merry-go-round ride.

Then after dinner little Ruth Ludwig, daughter of Mrs. Atha L. Ludwig, will dance for the children. Ruth is only seven years old yet she dances with the ease and grace of any professional. It will be a treat for both young and old.

Remember the start will be made at 9 o'clock prompt from North Park Place, where all auto drivers are requested to report.

CARRANZA TROOPS FIGHT CONTINUOUSLY WITH LOPEZ BANDITS.

ASSOCIATED PRESS TELEGRAM
Chihuahua City, Mex., Aug. 12.—Reports from the forces of General Carranza and Colonel Zuaiza in northern Durango to General Trevino today indicate that they are engaging in an almost continuous running fight with the bands under Matin Lopez and that the bandits lose men in each skirmish, while the government have lost but few.

General Trevino pointed out that a number of prominent outlaw leaders have been killed in the last few weeks, and said that every effort is being made to exterminate the leaders, it being realized that without their commanders it will be an easy matter to subjugate the bandits.

Local municipal elections, the first step toward restoration of full civil government in this state have been set for the third Sunday in September.

THREE SHIPS SUNK BY ONE SUBMARINE: THREE OTHERS PASSED.

ASSOCIATED PRESS TELEGRAM
Havre, Aug. 12.—Six ships were held up at once by a German submarine on Thursday morning. The commander of the submarine ordered the crew of the French steamer Marie to get into boats and then sank the vessel with bombs in view of the crews of the other five.

The Norwegian steamers Credo and Soro were next sent to the bottom. Mrs. Lowery and their little daughter of St. Louis, and are expecting Mr. and Mrs. Millard Lowery of Philadelphia, and Mr. Keith Lowery of Dayton.

CATHOLICS EXPECT 20,000 VISITORS IN NEW YORK CITY.

ASSOCIATED PRESS TELEGRAM
New York, Aug. 12, 12:30 p. m.—Complaints of American shippers over the detention of consignments to the Netherlands Overseas Trust are being supported and pressed by the American government. American claimants will decline to be bound by a clause in the British government's agreement with the trust by which Great Britain reserves the right to detain any shipment until reasonable doubt of its destination has been satisfied.

The shippers take this attitude on the ground that they are not contractual parties to such an agreement.

CATHOLICS EXPECT 20,000 VISITORS IN NEW YORK CITY.

ASSOCIATED PRESS TELEGRAM
New York, Aug. 12.—Promoters of "Catholic Week" beginning Aug. 21, when seven Catholic societies will convene here, announce that the attendance will exceed 20,000. More than 3500 are expected from New York state, 1,000 from Boston and large delegations from Pennsylvania and the south and west. Three cardinals, two archbishops, and about a score of bishops of the Catholic church have promised to be present.

AUSTRIANS DROP BOMBS ON VENICE CHURCH; DESTROYED.

ASSOCIATED PRESS TELEGRAM

MAKES MAY RUN INDEPENDENTLY FOR GOVERNOR

Columbus, O., Aug. 12.—Rudolph Mack of Cincinnati, who was defeated by Governor Willis for the Republican nomination for governor, today announced he will run for governor on an independent Republican ticket.

"I expect to be elected by drawing the normal vote from both parties," said Mack. "He said it had not been decided whether there would be an entire state ticket.

Granville

(Special to The Advocate)

Granville, Ohio, Aug. 12.—The annual picnic of the W. C. T. U., which was to have been held on the Mrs. Christine Cook's lawn in North Mulberry street, on Friday afternoon August 11, was transferred to the porch of Mrs. Sarah Meyers' residence because the grass was too wet for comfort. About twenty ladies came with bountifully filled baskets and enjoyed the porch party.

The program was a miscellaneous one led by Mrs. William Howe, and many good things were said by those who were prepared to speak. Mrs. E. Megaw and Miss Abbie Davis each gave a group of readings, very greatly appreciated, and Mrs. Carnegie of Newark spoke in a most interesting manner on "Prohibition." The supper was abundant and appetizing, and the occasion on one of unalloyed enjoyment and benefit.

At the Presbyterian church tomorrow, the morning sermon will be preached by Dr. Dwight Wylie of Philadelphia, who will have charge of the men's class at 11 o'clock.

At the Methodist church there will be the morning sermon by the pastor Rev. Otto Giesen. Sunday school at 11 a. m., and the Epworth League at 6 p. m.

Safe Home Remedy for Skin-Troubles

Eczema, ringworm, and other itching, burning skin eruptions are so easily made worse by improper treatment that one has to be very careful. There is one method, however, that you need never hesitate to use, even on a baby's tender skin—that is the resinol treatment. Resinol is the prescription of a Baltimore doctor, put up in the form of resinol ointment and resinol soap. This proved so remarkably successful that thousands of other physicians have prescribed it constantly for over twenty years.

Generally resinol stops itching at once, and heals the eruption quickly and at little cost. Resinol ointment and resinol soap can be bought at any druggist.

Resinol Soap is not only unusually cleansing and softening, but its regular use gives to the skin and hair that natural beauty of perfect health which cosmetics can only imitate.

It costs money to go to law. The Judge charges the jury, but the lawyer charges his client.

EXCURSION TO CEDAR POINT; ALL INVITED

The Jewett Car Company will give one of their delightful excursions to Ohio's famous resort, Cedar Point, on Saturday, August 26. It will be one day of real enjoyment for all who take advantage of the cheap round trip rate which the Jewett Company will offer.

The excursion is not confined to the Jewett Company alone but the public is invited. Every man, woman and child in Newark is extended an invitation to join the jolly throng and have a day of pleasure that will long be remembered. Take a dip in the famous bathing beach, the finest in the country with the exception of Atlantic City. Another thing, you will not need to keep a lookout for sharks, for they do not infest the great lakes.

Then there is the big dance halls, and the scores of attractions found at the point every season. The crystal palace, the rathskeller, the cabarets and some of the best entertainers in the country, with all the big song hits. Plenty of shade for picnics and everything that will assist in rounding out a day filled with jollity from time of arrival until the return in the evening.

A. J. Boeckling, brother of George Boeckling, president of the Cedar Point Resort company, one of the best known excursion agents in the country, will be on hand to give the Jewett excursionists his personal attention. That means that everything will move along smoothly and that there will be no hitch in the program.

Kicked By Horse, Woman Suffers Several Bad Cuts

Mrs. Samuel McInturf, residing at 113 East Channel street, was seriously injured when she was kicked by a horse Friday, just as she was preparing to take a ride.

Mrs. McInturf has been in failing health for the past year, and was just beginning to recuperate, when the accident happened. She went out to get into the buggy and in passing the horse the animal became frightened and kicked her in the right side. Dr. S. S. Richards was called and while no bones were broken, Mrs. McInturf received severe cuts and bruises, and is suffering greatly from the shock of the accident.

She is resting more comfortably today.

BROWNSVILLE GRANGE PICNIC WEDNESDAY, AUG. 16.

The annual picnic of the Brownsburg Grange, No. 1738, will be held Wednesday, August 16, in the Hamilton Grove near Brownsburg.

Two interesting speakers have been secured for the day besides a lengthy program arranged by the committee.

The program is as follows:

Flag drill, recitation by Gladys Orr, song by Evelyn Norman, Motion song, field events, mile race, 100-yard dash for boys under 16, 100-yard dash free for all, 50-yard dash for girls, wheel-barrow race, sack race, rooster race.

A baseball game will be arranged for the baseball enthusiasts. All are invited, bring well filled baskets and enjoy yourselves.

BANKRUPT FOUND HIS OIL STOCK WAS WORTH OVER \$10,000.

COLUMBUS, Aug. 12.—George B. Taylor, former proprietor of the Southern Hotel billiard room, had to file a petition in bankruptcy to discover he was not insolvent.

Taylor's petition listed his assets at \$5,000 and his liabilities at 19,000.

When his case came before the Federal Bankruptcy Referee Fred N. Sinks this week, Albert H. Bell, attorney of Tulsa, Okla., unexpectedly appeared on behalf of clients who were among the Taylor creditors.

In looking over the assets
